

# STAKEHOLDER MAP

Transfer this template to a poster and use the boxes that surround your team to list the most important stakeholders. You can write one stakeholder-group per box. Use the overlaps for stakeholders which are part of two groups.

## Key questions:

- Who can expand/complement your team?
- Whom do you have to involve in your decisions?
- Who will be affected (directly or indirectly) by the changes you implement?
- Who can deliver useful input?
