

— ROSE-FRAMEWORK

The Rose-Framework helps to solve goal conflicts between the different stakeholders before a project.

The rose will help you to make the different opinions of the stakeholders clearer and more concrete. Use the rose as the basis for a following discussion.

Activity:

Every participant takes some Post-Its and a pen.

Silently think about pro, contra and opportunities concerning the project.

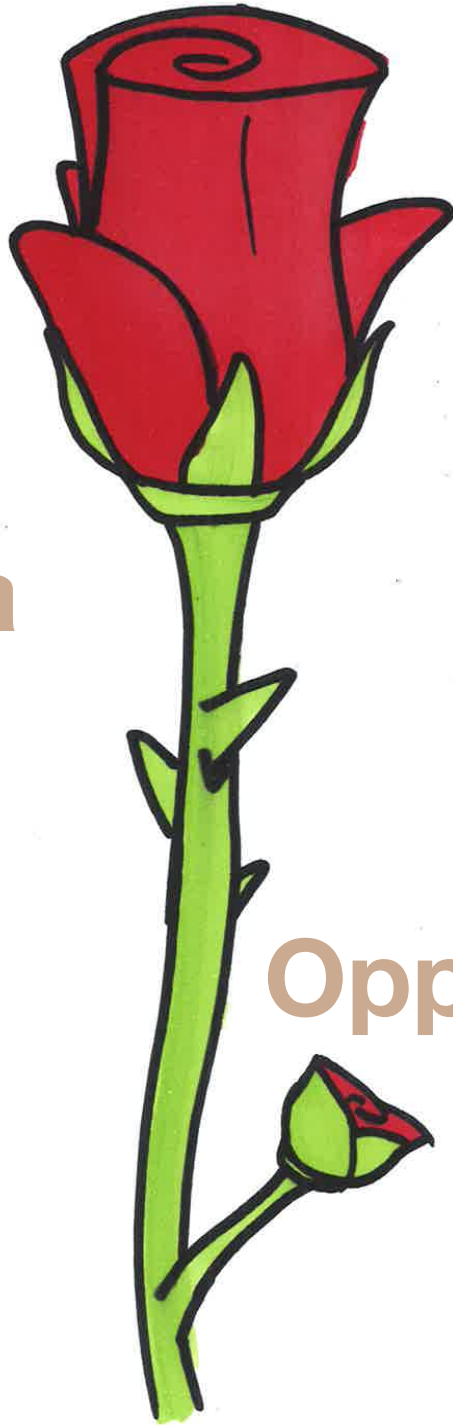

Write your thoughts on the Post Its - one thought per Post-It.

In the next step, share your Post-Its and put them at the appropriate place on the rose.

What you need:

- Post-Its and one pen per participant
- Poster of a rose
