

# PROGRESS BOARD

1	2				3	4
Business Hypotheses	Test: Residue	Test: Build	Test: Measure	Test: Learn		Progress
<p>List the most important assumptions which have to prove true in order for the idea to work. Prioritize the most important assumption which would doom your company for failure.</p>	<p>The tests and experiments you want to conduct.</p>	<p>The tests and experiments which have to be planned, designed, and built.</p>	<p>The tests and experiments which are conducted at the moment, and for which data is gathered.</p>	<p>The tests and experiments which have been conducted, for which data has been gathered, and which have to be evaluated.</p>		<p>Your validation criteria step by step</p>
						<hr/> <hr/> <hr/>
						<hr/> <hr/> <hr/>
					<p>Declared as invalid</p> <p>Back to the drawing board and iterate the design, or change completely</p>	<hr/> <hr/> <hr/>
						<hr/> <hr/> <hr/>
					<p>Unclear results</p> <p>Create another test and learn more before a decision is made</p>	<hr/> <hr/> <hr/>
						<hr/> <hr/> <hr/>
					<p>Validated</p> <p>Continue to the next step on the journey to make your idea reality.</p>	<hr/> <hr/> <hr/>
